Art Unit: 3714

1. The amendment filed on 10/3/06 has been entered. Claims 1-36 are canceled and claims 37-43 have been pending.

Allowable Subject Matter

2. The indicated allowability of claims 37-43 is withdrawn in view of the newly discovered reference(s) to Bjerre et al (US 2005/0091089 A1). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 37-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bjerre et al (US 2005/0091089 A1).

As per claims 37-43, Bjerre discloses a drafting method of a draft of a bill of lading, said method comprising the steps of: performing pre-booking of a specific outgoing vessel schedule selected among previously obtained outgoing vessel schedule information at a time of receiving a consigning order of cargo delivery, and using information concerning a designated outgoing vessel schedule as draft information for the bill of lading (page, [0072]); issuing a booking instruction of the outgoing vessel schedule information for confirmation returned with an attached bill reservation number of the bill of lading; making new draft information for the

Art Unit: 3714

bill of lading by adding shipping instruction information to the outgoing vessel schedule information for confirmation in response to a shipping requirement; and transmitting the new draft information for the bill of lading as final draft information for the bill of lading (page 6, [0072] – page 7, [0079]). Bjerre does not disclose an automatic draft information of the bill of lading but it is well settled that it is not "invention" to provide an automatic means to replace manual activity which has accomplished the same result. In re Rundell, 18 CCPA 1290, 48 F.2d 958, 9 USPQ 220.

Response to Arguments

5. Applicant's arguments with respect to claims 37-43 have been considered but are moot in view of the new ground(s) of rejection.
